Dear Jonathan,

Over the course of my career, I have planned and attended numerous special event functions. I have never had such a wonderful experience as I did when I worked with you and your staff on the Title First Holiday Brunch.

What speaks volumes about your work is the effortless way in which you coordinated and planned the entertainment for our group. Not only did you meet and consult with our brunch planning committee, you also took the time to discover our needs and goals for the event. Once we hired you, the ball did not just fall in your court – you took it and ran. Your knowledge about audio visual needs and equipment certainly worked to our advantage when you saved us well over \$500 on equipment rental costs.

Being new to the company, I quickly discovered that our employees were not excited to attend this annual event due to bad experiences in the past (mostly surrounding the entertainment portion of the program). We knew – with full confidence – that you would make this year bigger and better. Boy is that ever an understatement! We had people thanking us for weeks after the event and I quote a fellow employee when she said, “this is the best company event I have ever attended.” What’s more, this employee has been with the company for over 10 years!

I could not be more pleased with the success of our event, and that is completely due to the professional, creative and dynamic event put on by Magical Experiences. I wholeheartedly recommend your services to anyone in need of entertainment at their next event.

Best regards,
